PROJECTS

Lawyer GPT – AI Legal Chatbot Platform

Role: Full-Stack Developer

- Developed a PHP-based legal assistant web app using the OpenAI API. Implemented secure user authentication, chat history tracking, and a responsive UI. Followed SEO best practices and deployed the platform on InfinityFree.
- Skills: PHP, MySQL, OpenAI API, Web Security, Authentication, UI/UX
- <http://lawyergpt.online/>

Cybersecurity University Projects

Role: Developer & Analyst

- Completed over 10 academic projects in ethical hacking, secure coding, and network security. Topics included penetration testing labs, firewall configuration, and secure web application development. All projects are publicly documented on GitHub.
- Skills: Java, Python, SQL, Pen Testing, Secure Coding, Networking (CCNA), CEH Techniques

SecureMidea – Instagram Political Comment Filter

Lead Developer & Researcher

- Built a Chrome extension with a FastAPI backend that flags politically manipulative Arabic comments on Instagram using an NLP model (aubmindlab/bert-base-arabertv02). Real-time comment extraction and AI classification integrated directly into Instagram UI.
- Shared at 2025 منتدى تواصل and winner of the Creative Cybersecurity & AI Idea Competition at Zaytoonah University.
- Tech Used: JavaScript, FastAPI, Hugging Face Transformers, Python, Chrome Extensions, NLP, Arabert, HTML/CSS

EDUCATION

Al Hussein Technical University (HTU)

Bachelor of Cyber Security

- GPA: 3.8
- Expected Graduation: August 2026
- Status: Currently enrolled in second-year summer semester (entering third year)
- Relevant Coursework: Network Security, Operating Systems, Cryptography, Data Structures
- project-based learning

High School (Tawjihi) Scientific Stream: 96.7%

CERTIFICATIONS & AWARDS

Cisco CCNA

CEH (Certified Ethical Hacker)

TryHackMe CTFs

2nd Place – Creative Idea in Cybersecurity & AI, Al-Zaytoonah University (2025)

Presenter – 2025 منتدى تواصل
