+962 770 324 310 | ahmad.marwan.cyber@gmail.com | [LinkedIn](#) | [GitHub](#) | [TryHackMe](#) | Amman, Jordan

SUMMARY

Cybersecurity undergraduate at HTU (GPA 3.7/4.0), graduating Feb 2027 — 6 months ahead of schedule. Background in penetration testing, ethical hacking, AI security tools, and secure development. Research paper with 99.93% phishing detection accuracy. Award-winning projects. Top 15% on TryHackMe (35+ rooms). Seeking cybersecurity internship or junior SOC/pentest role.

TECHNICAL SKILLS

Security: Penetration Testing · Ethical Hacking · OSINT · Risk Analysis · Digital Forensics · OWASP Top 10 · SQLi · XSS · Privilege Escalation · Nmap · Metasploit · Burp Suite · IDS/IPS · Digital Forensics · Cryptography · SIEM(academic)

Dev & Tools: Python · Java · JavaScript · PHP · C · SQL · Bash · FastAPI · scikit-learn · XGBoost · SHAP/XAI · NLP · AraBERT · GitHub Actions · Kali Linux · Git · Chrome Extension Dev

PROJECTS

Yaqeen — Mobile Fraud Detection App · Code on Request

2025 – 2026

- Led team of 3 · Bilingual Arabic/English Android app · Submitted for the **Crown Prince Award for Best Government Application**
- **4 AI security engines:** Phone scanner (7-layer ML pipeline, RandomForest + Platt calibration, whitelist, entropy analysis) · Link & QR phishing scanner (URL/redirect/lookalike detection) · Live government fraud alerts (FastAPI + MongoDB) · News misinformation classifier · All with bilingual XAI output
- Production security: JWT auth · timing-attack-safe auth · rate limiting · CSP · Liaised with Jordan Cybercrime Directorate .

SecureMidea — AI Threat Detection Chrome Extension

2024 – 2025

github.com/AhmadM962/Secure_Midea

- **2nd Place — Cybersecurity & AI Competition, Al-Zaytoonah Univ. (2025)** · AraBERT NLP + FastAPI backend detecting manipulative Arabic comments on Instagram · Presented at 2025 Tawasul Forum

LawyerGPT · Course Checker · Tawjihi Checker

2023 – 2024

[GitHub](#)

- Secure PHP/MySQL + OpenAI API web app (session auth, SQLi prevention, HTTPS, OWASP) · Playwright SIS automation with Telegram alerts via GitHub Actions · Tawjihi results portal monitor

Cybersecurity Projects (15+)

2023 – 2025

github.com/AhmadM962/my-projects

- SQLi · XSS · CSRF · privilege escalation · firewall config · Wireshark · digital forensics · secure coding · AWS cloud computing · cryptography — documented on GitHub

RESEARCH

Phishing Detection via Explainable URL Analysis | [View Paper](#)

HTU · 2025 – 2026

- Offline XGBoost classifier on URL features · 99.93% accuracy · <0.1% miss/false-alarm rate · SHAP explainability · Validated via on-device browser extension

EDUCATION

Al Hussein Technical University — B.Sc. Cybersecurity

Feb 2027 · 3.5 yrs (accelerated)

GPA 3.7/4.0 · Ethical Hacking · Network Security · Cryptography · Digital Forensics · Risk Analysis · AI · Cloud (AWS) · OS · DB Design

Tawjihi — Scientific Stream

Jordan

Score: **96.7%**

AWARDS & ACTIVITIES

2nd Place — Cybersecurity & AI Competition · Al-Zaytoonah University

2025

National Presenter — Tawasul Forum · Jordan's national technology & innovation conference

2025

TryHackMe Top 15% Globally · 35+ rooms: pen testing · network security · cryptography · web exploitation · forensics · SOC · Metasploit | tryhackme.com/p/Ahmad147

LANGUAGES

Arabic: Native | **English:** Professional Working Proficiency
